

# Tutorial - InGaAs/InAlAs Mid-IR QCL

This tutorial is based on the following publication.

[YuSST2010]

Injector doping level-dependent continuous-wave operation of InP-based QCLs at  $\lambda = 7.3 \mu\text{m}$  above room temperature

J. S. Yu, S. Slivken, M. Razeghi  
Semiconductor Science and Technology 25, 125015 (2010)

This paper describes an InGaAs/InAlAs Mid-IR quantum cascade laser (QCL) operating at  $\lambda = 7.3 \mu\text{m}$ .

(Further content has to be added...)
